Host Entrepreneur David Acevedo

Age:41

Company Prexenz VR-AR studio

Sector: 3D Graphic

My Erasmus was an exchange and a work aid

GREEN EYE

Erasmus for Young Entrepreneurs

This experience has given the new NE the opportunity to understand what services are most in demand in the digital 3D field. And how to use some different skills to achieve an optimised and efficient visual result. As visualisation for architecture, video games, VR and VFX then which possible markets to target. It will be possible for the NE to try to open his own business as a freelancer in Italy.
