Company NAME: Barata Arquitectos

Sector: Architecture

“My Erasmus for Young Entrepreneurs period has been a moment of confrontation and exchange with a person of different culture and background”

GREEN EYE

Erasmus for Young Entrepreneurs

“During this four month I worked on different projects, from public to private commissions, having the possibility to explore the various scales of the architectural process of design and construction. I shared this experience with interesting and competent people, discovering the city of Porto and approaching the Portuguese culture and traditions. Thanks to this experience, I developed new ideas about my concept of architecture as practice and as a way of exploring the world that surround us: I hope I will be able to transport all tis thoughts in y personal atelier, that I will try to start once I come back to my homeland”
